

STATE SUPPORT

SMALL AND MEDIUM ENTERPRISES

Small and medium enterprises are not only the main structural factors of the market economy, but also a socially significant element that guarantees the operational use of the freed labor resources.

The development and support of small and medium-sized enterprises is one of the priorities of state policy in the Volgograd region, which is successfully implemented through several regional programs.

The subprogram "Development and support of small and medium-sized enterprises in the Volgograd region" has been operational since 2017 as part of the state program of the Volgograd region "Economic development and innovative economy".
