

STATE SUPPORT

TO ALL INVESTORS

Attracting investments in the Volgograd region is one of the main tools for the development of the region. In this regard, we are ready to provide investors with a high level public support for carrying out investment projects.

The Region grants the privileges and preferences to those subjects of investment activities who implement investment projects in the priority sectors of investment development on equal terms for both Russian and foreign investors.

The particular importance is attributed to the social, economic and environmental efficiency of investment projects, to the possibility of creating new activities and to the development of existing ones.
